## Dashboard:

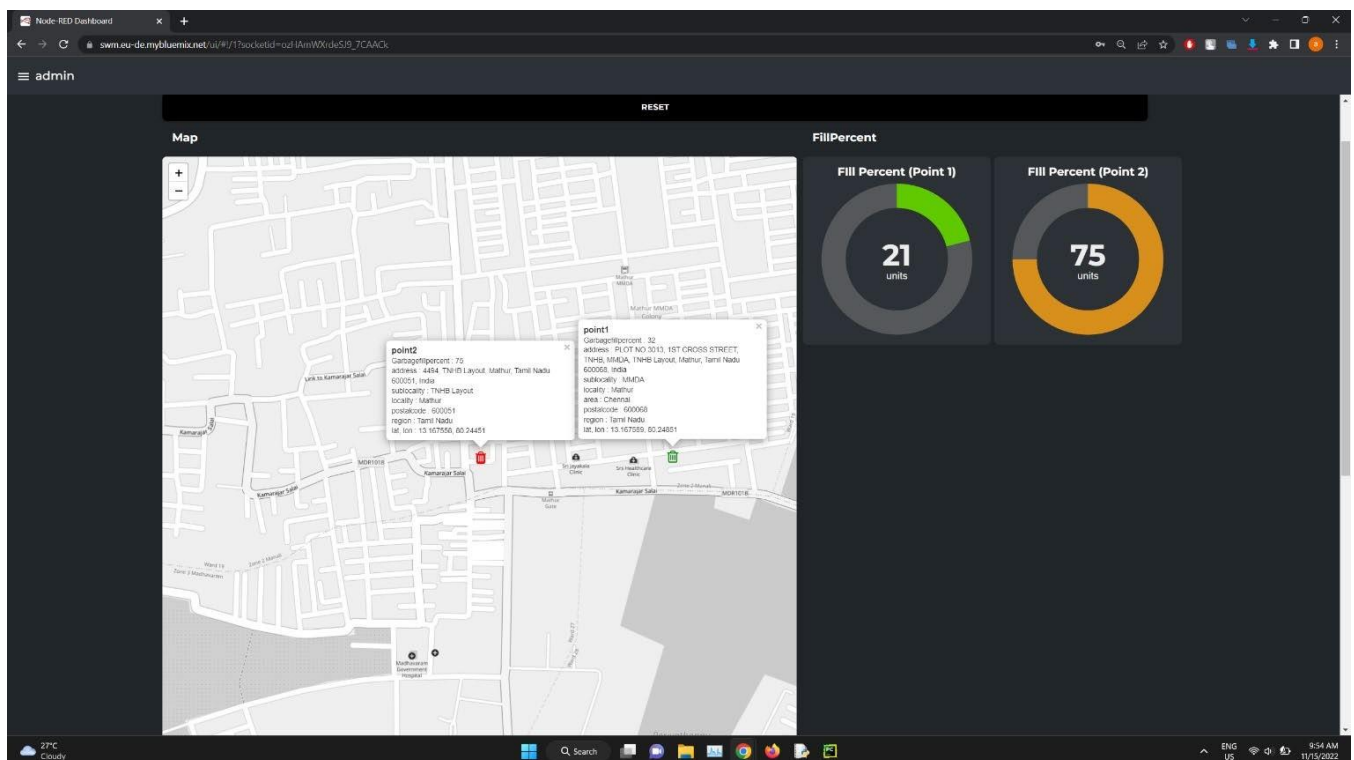

**Note:** Here I have used two dustbins. So, we can see both of their Trash Fill percent in their particular location.

By clicking the dashboard button, we can view the dashboard.

Here we can see the map and the Fill percent for both the garbage bin.

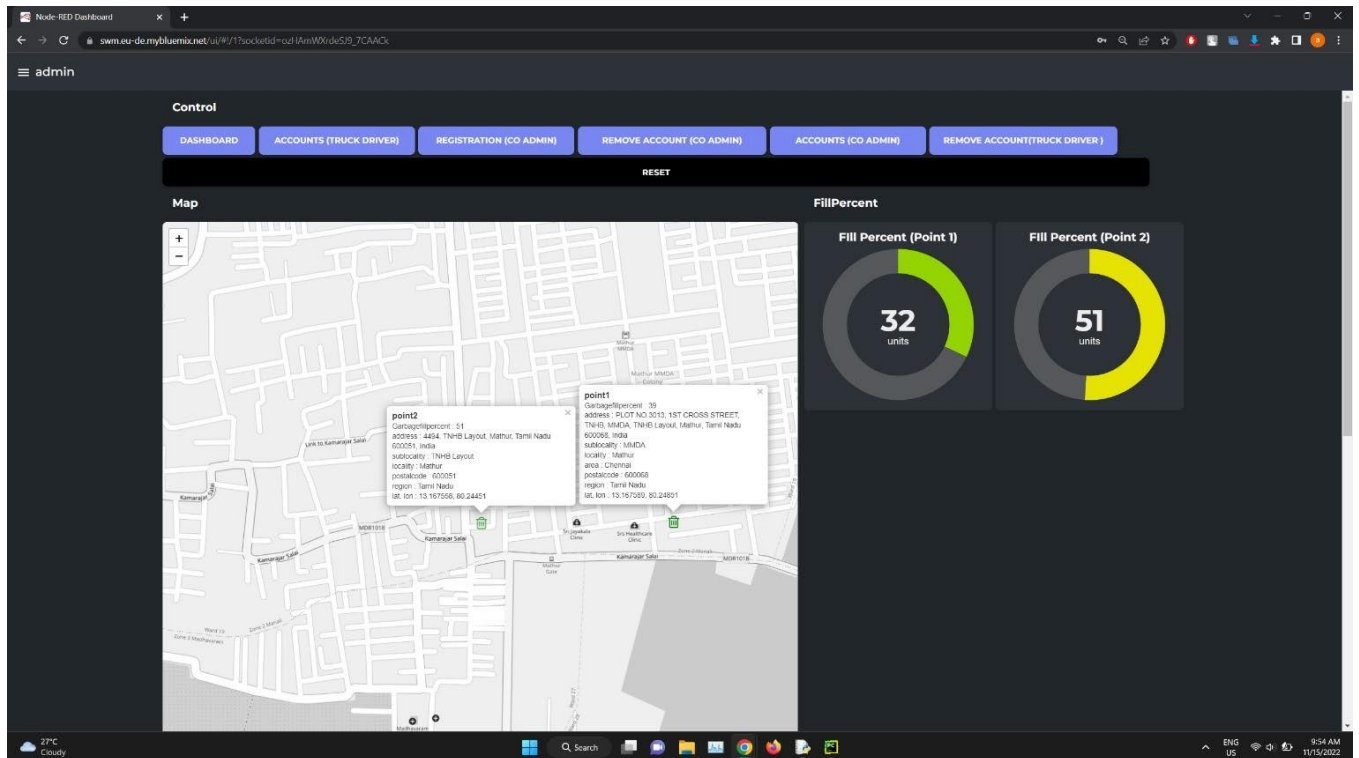

By clicking on the icon in the map we can see the details like

- Fill percent
- Address
- Sub locality
- Postal code
- Region
- Latitude, longitude

**Note:** Here once the bin level crosses their threshold level (here I have set as 60%) the icon colour changes to **Red**. if it is below the threshold the icon colour changes back to **Green**.

Here we can also see the Gauge where the Fill Percent of each Garbage bin is shown.

Here we can see the Table where it shows the last filled Timing (i.e., once the garbage bin fill to 100% the table is being updated with their timing)

The screenshot displays the Node-RED Dashboard interface. At the top, there's a navigation bar with buttons for 'DASHBOARD', 'ACCOUNTS (TRUCK DRIVER)', 'REGISTRATION (CO ADMIN)', 'REMOVE ACCOUNT (CO ADMIN)', 'ACCOUNTS (CO ADMIN)', and 'REMOVE ACCOUNT (TRUCK DRIVER)'. Below this is a 'Table' section showing a list of garbage bin fill data. The table has columns for Name, Time, Date, Locality, and Address. The data is organized into two sections, one for 'point1' and one for 'point2'. The bottom status bar indicates a temperature of 27°C, cloudy weather, and the time 9:54 AM on 11/15/2022.
